

CAT & DOG WELFARE

2021

What is

PFC takes in sick, hurt and abandoned animals. We provide them with a safe and loving environment where they can heal and learn to trust again.

All our animals are up for adoption.

Dogs and cats are sentient creatures, which means they can feel pain and have emotions and feelings, just like humans.

Our projects

- education
- sterilisation to reduce overpopulation
- ending the cat and dog meat trade
- rescue and rehabilitating street animals

Do you know what pets need?

All animals have 5 basic needs

Living as pets with an owner or
living on the streets without an owner

on the street

with an owner

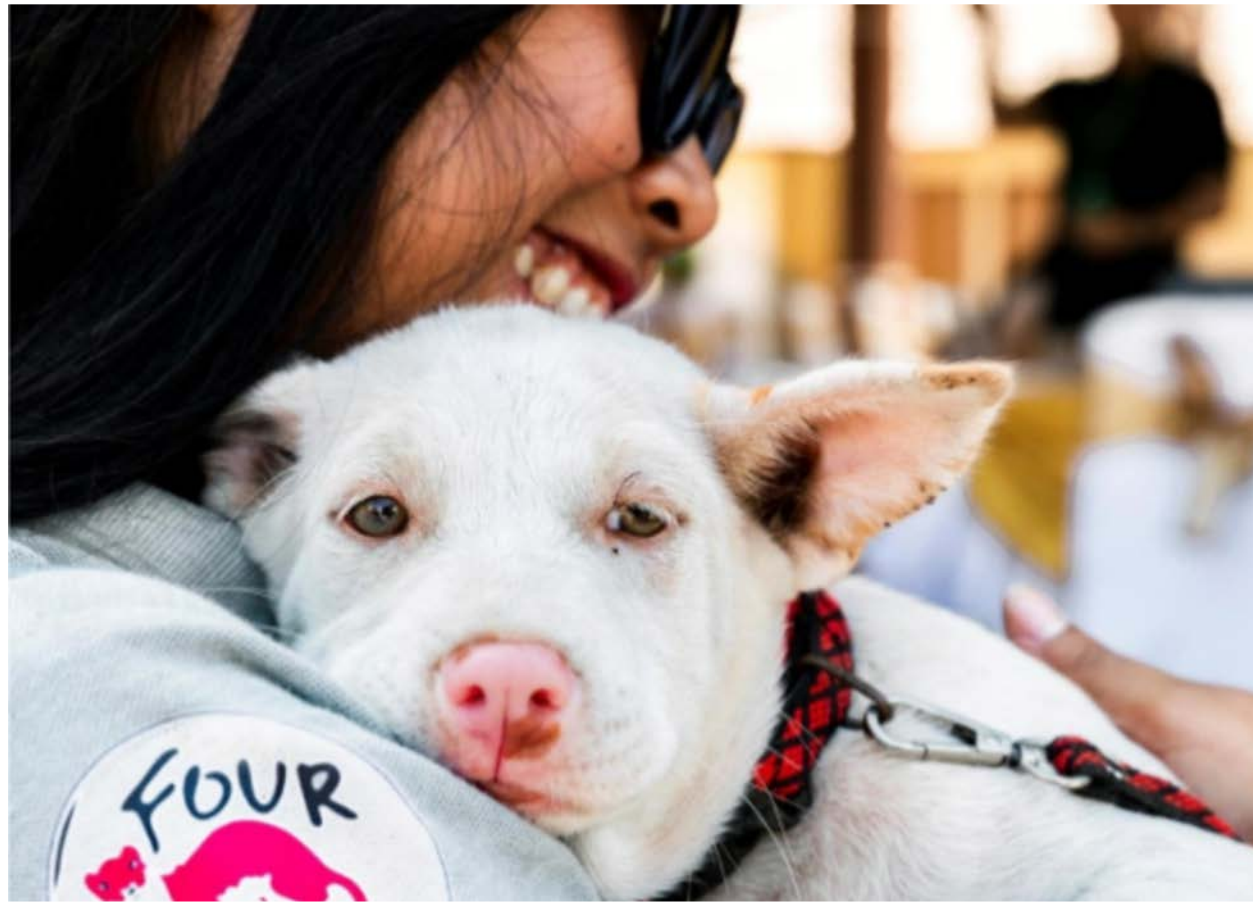

5 basic needs

1. FOOD & WATER

Dogs and cats can be hungry and thirsty, so they need food and water everyday.

Animals should have access to fresh, clean water at all times and should be given the adequate type and amount of food to keep them fit and healthy

5 basic needs

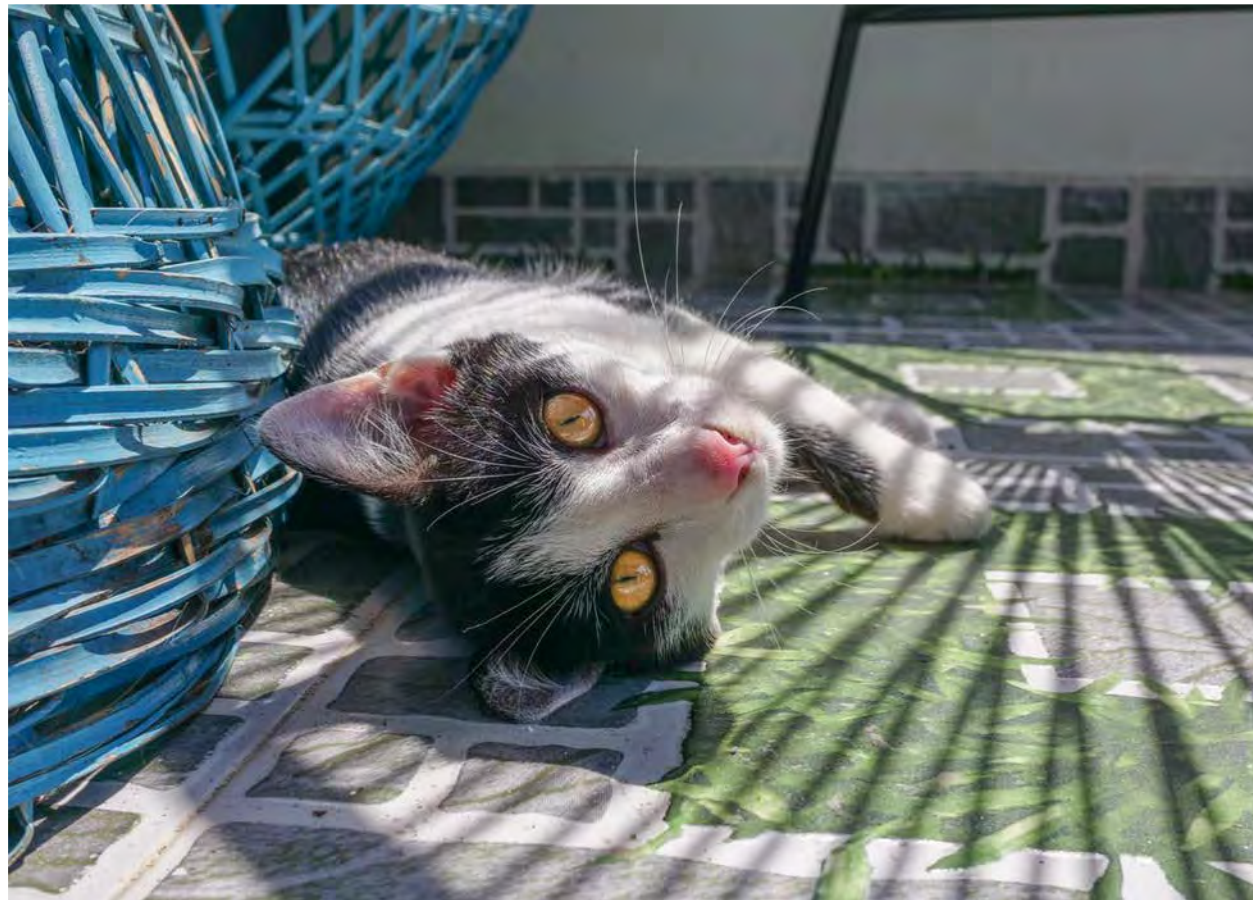

2. LOVE & ATTENTION

Animals can sometimes be scared and you need to be nice to them.

Animals need to be kept in conditions that mean they will not suffer or feel pain, and they need to be treated in a way that does not frighten them or cause distress

We are lucky that we can give all these beautiful animals all the love they need.

5 basic needs

3. EXERCISE & NATURAL BEHAVIOUR

Animals need enough space to run and play every day.

Animals need company (some don't) of other animals of their own kind, enough space and appropriate facilities so they can express natural behaviour.

5 basic needs

4. SHELTER

Animals need a place where they can rest and hide from the heat, the rain or from pet thieves.

Animals need a suitable place to live. They should be provided with the adequate type of home, including shelter, space and opportunities to exercise and a comfortable place to rest and hide.

Animals should also not be closed in a cage all day.

5 basic needs

5. MEDICAL CARE

Animals can get sick or be wounded (broken leg) and then they will need a veterinarian (= doctor for animals).

Animals should only be treated by a vet if they are sick or injured as soon as possible.

The basic needs of pets

How can you help?

Our mission is only possible with the help of our supporters. You can help through your time, voice or donations.

Help us spread the word and make Vietnam, and the rest of the world, a better place for our companion animals. Tell your friends what we do!

Craft time!

You just rescued a cat or dog that was hungry and all alone on the street.

Draw a picture of the new kitty or puppy and give him/her name.

Then draw the things she needs.

Craft time!

We want everyone to know the basic needs of our beloved fur friends.

Make a poster showing their needs to the rest of your school
